# Resume data in JSON format

```javascript
let resume = {
    name: "Gowthaman",
    fname: "Subramanian",
    age: "32",
    degree: "MCA",
    address: {
        state: "TamilNadu",
        coutry: "India"}
     }

    let a = JSON.stringify(resume);//Covert to JSON format
    console.log(a);
    let b = JSON.parse(a);//Convert text into a JavaScript object
    console.log(b);
```

**Output:**

```
 PS D:\GUVI\JS files> node objectDemo.js
{"name":"Gowthaman","fname":"Subramanian","age":"32","degree":"MCA","address":
{"state":"TamilNadu","coutry":"India"}}
{
  name: 'Gowthaman',
  fname: 'Subramanian',
  age: '32',
  degree: 'MCA',
  address: { state: 'TamilNadu', coutry: 'India' }
}
```
